One major flaw in these Dover scores is that they do not contain measure numbers! I own several and for the life of me I can't figure out why Dover doesn't put measure numbers in the scores. Very frustrating to say the least! 0 of 0 people found the following review helpful. No problem except for... Good purchase By Aaron Daniel This is a great collection of the Schumann symphonies, there are much better editions out

there but for the price these are a good buy!

This volume reproduces, complete and unabridged, the scores of all four symphonies of Johannes Brahms, from the Vienna Gesellschaft der Musikfreunde Edition edited by Hans Gl. Included are Symphony No. 2 in D Major, Op. 73; Symphony No. 3 in F Major, Op. 90; and Symphony No. 4 in E Minor, Op. 98. The English translation of the editor's preface was prepared specially for this Dover edition. Do not confuse this with a piano rendering; it is a full orchestral score. In addition to its obvious uses for study, this score is also an indispensable associate for a listener who wishes to appreciate the full orchestral richness of these works.
