John Loney : Comprehensive Bridge Bidding: Instilling logic into a labyrinth of methods before purchasing it in order to gage whether or not it would be worth my time, and all praised Comprehensive Bridge Bidding: Instilling logic into a labyrinth of methods:

The concepts presented in this book are the result of extensive analyses of questionable bidding methods, with logical solutions provided. Superior conventions and treatments complement basic bidding methods, with losing-trick count underlying all bidding decisions. Defensive carding strategies, odd-even discards, effective leads, and deceptive techniques are presented.

About the Author During his college days, Mr. Loney met two presidents while a student intern in the nations capital, and he played the cello in the Richmond Symphony Orchestra. He subsequently served three tours of duty in coastal South Vietnam as a boat group commander while attached to a U. S. Naval amphibious ship. Mr. Loneys introduction to duplicate bridge involved a shocking spousal altercation, while playing with his grandmother! In recent years, he published articles in the Bridge Bulletin. After a career in commercial real estate appraisal and sales, he retired to Laguna Woods Village, where he balances bridge with golf, dancing, and concerts.
