Sheet Music - Mike Hannickel does it again with this hilarious follow-up to Concerto for Triangle and Band. Any well-known personality from your school staff becomes the over-eager crash cymbals soloist. Whether it's the principal, the custodian, the cook, the school secretary, or any one else who is recognizable to the students or the community, we're sure you have a great soloist somewhere nearby, just waiting for a chance to shine. Very easy band parts mean that any group should be able to prepare the music for performance in short order.
