Jocelyn R. Neal : Country Music: A Cultural and Stylistic History before purchasing it in order to gage whether or not it would be worth my time, and all praised Country Music: A Cultural and Stylistic History:

A vibrant introduction to a quintessential American art form, *Country Music: A Cultural and Stylistic History* is the first undergraduate textbook that focuses solely on country music. Written by an experienced teacher and renowned scholar of the genre, it offers a coherent narrative that explains country music, its origins, its development, and its meaning from the first commercial recordings of the 1920s up to the present. It highlights significant performers, songs, and institutions in country music. It also considers key social, political, and musical issues that span many decades of evolution within the genre. Each part of *Country Music* opens with an introduction that provides a broad sense of the trends, context, and significant elements of country music during a specific period. Each chapter offers three essential features within the narrative: * Artist Profiles provide a close look at important figures in the history of

country music, from country stars to songwriters to industry personnel* Listening Guides connect specific recordings to the ideas presented in each chapter; end-of-chapter playlists offer suggestions for further listening* Boxed essays offer in-depth explorations of topics in seven categories: history, musical style, the music business, culture, technology, songwriting, and issues of identityCountry Music concludes with three helpful appendices on song form, country music instruments, and finding the recordings. A companion website at www.oup.com/us/real offers chapter summaries, questions for review, and web links.Offering a thorough overview of a core part of American culture, this compelling and accessible book is ideal as the main text for Country Music courses and as a supplement for courses in American Music and American Popular Music.
