Excerpt from Course of Study on the Development of Symphonic Music This book - "The Development of Symphonic Music", by Thomas Whitney Surette - is the first of a series which the National Federation of Musical Clubs will offer to the music students of America. The "Course of Study" - of which this is the initial book - is designed to meet the present needs of music students and those who desire to understand and appreciate concert programs, even though they may not be performers. The majority of concert-goers do not care to delve into music history; they wish to understand the present day program which is frequently available to them. If the concert programs of today are made clear, an interest is excited and one is stimulated to further study. Research work comes later.
