Does not tell you how to play but tells you the best percentages and how many rolls to expect per game etc.2 of 3 people found the following review helpful. Advanced reading for the experienced craps playerBy Andrew RothThis book is great! However, beware that this book already assumes that you know the basics about craps. Right away it dives into odds, percentages, vigs, and strategies. If you are an experienced craps player but you want to develop and tone your method, this is the best book out there. Come Seven!
