Will Thomas : Craps: The Ultimate Winning Strategies before purchasing it in order to gage whether or not it would be worth my time, and all praised Craps: The Ultimate Winning Strategies:

0 of 0 people found the following review helpful. this book is a jokeBy J Anyone that understands the house odds will read this book and wonder if the author did this as a joke. I read it twice thinking I missed something. You will go broke following the advice given in this book.0 of 0 people found the following review helpful. Same your

money....By RBBSR This is not worth your time....It showed the basic layout and odds but absolutely no winning strategy. The idea of only winning the comeout roll is far from a money making proposition....I am disappointed that I paid for this.

CRAPS:THE ULTIMATE WINNING STRATEGIES was brilliantly written after years of defining, analyzing, and establishing/illustrating criteria for effectiveness at the table. In its simplest form, author and expert, Will Thomas, Jr., reveals detailed strategies on: combinations/odds, basic table layout, game knowledge, money management, table survey, determining risk levels, coming-out strategy, basic strategy, ultimate strategy and knowing when to walk away. Will Thomas on Craps: The Ultimate Winning Strategies...In order to become a winner and beat the casinos at their game you have to become a student of the game. Practice, practice, and practice again my strategies for success and no longer feel intimidated by casinos. Trust me! Luck has nothing to do with winning in this game called Craps. It's how you prepare, approach and execute my winning strategies. Please keep in mind that most books on Craps teach you the language, rules, how to play and some strategies for losing more often than winning! Even the basic table layout is 90% camouflage and filled with losing proposition bets! My book will focus on the remaining 10% and how you can maximize your bets. I will be covering most of those concerns from a slightly different perspective. My main objective of this book is to share with my reader's years of ups and downs of competing with the casinos and what I believe to have discovered -- the ultimate winning strategies that you too can use to start recuperating some of your losses and become a force to be reckoned with. As a retired documentation control specialist for manufacturers, Aerospace, Department of Defense and the semiconductor industry, I've applied these skills and perspectives to create a winning matrix in Craps: The Ultimate Winning Strategies. Prior to completing my ultimate winning strategies, the casinos would win every single time. Some call it donating or paying my dues. My wife and friends called me stupid for wasting time and giving the casinos my hard earned cash! By learning and applying Craps: The Ultimate Winning Strategies, you'll be prepared to recognize the constantly changing table conditions and know when to walk away! I've learned over the years that one thing is for sure, your numbers will come up! The trick is knowing when; it's all about consistency, how well you prepare and making the right choices to become "As Good As Any and Better Than Most." Knowing when to walk away gives you time to re-evaluate your strategies; it gives you a chance to recognize that the dice are not in your favor at this time, You've tested the waters and it's just not your time! It's very similar to any professional sport; you have to let the game come to you! And believe me, you will know when it's your turn to burn! Respect the game for what it is and you can't change its primary function for winning. You can only change your own prospects for winning by applying Craps: The Ultimate Winning Strategies and by mastering my strategies the game in turn will ultimately treat you accordingly! That is "As Good As Any and Better Than Most."

"As Good As Any and Better Than Most" - The Movie SHANE From the Author Craps: The Ultimate Winning Strategies is dedicated to all those players, Hi Low Rollers, never able to walk away a winner. I became a student of the game, Craps, twenty-four years ago on Nov. 02, 1990 just by chance, and finally developed a system that I feel is "As Good As Any and Better Than Most" (Alan Ladd from the movie SHANE). I know everybody has a system and you just can't beat the casinos. I'm not in any way suggesting that I guarantee anyone can win using my system. In order to become successful in any game of chance, you have to become a student of the game and apply the necessary knowledge skills needed to become a winner! From the Back Cover It all started back in December, 1989 after exchanging Christmas presents with my co-workers before leaving for Christmas New Year Eve shut down. My present was a book about Craps! I never really understood how to play it. My name is Will. I'm a retired Marines Corps Vietnam Veteran and I've always wondered what it would take and feel like to beat the casinos. I decided to browse through the book I received and became fascinated with its challenges and sophisticated rules of the game. On November 02, 1990, I created my first matrix spread sheet for documenting my various strategies for beating the casinos, and some 24 years later no one's laughing now! My first successful breakthrough was during the summer of 2002, when my wife Brenda and another couple agreed to invest what little funds (\$500) we had and try out my system, Craps: The Ultimate Winning Strategies at The Horizon Hotel Resort and Casino in South Shore Nevada. I will never forget the reception we got that afternoon from one of Craps table officials asking us, What did you guys do? Did you break into the kids' piggy bank? Ha, Ha, Ha. Approximately 15 minutes into the game, they were calling me "Sir" and we were \$2,500 ahead and left the casino Winners! It's all about Relationship, Diversity and Configurations between each bet! I've worked over 30 years in Silicon Valley as a Documentation Specialist in Engineering Support dealing with Base-Line Configuration and Traceability of various projects. I've simply transferred those skills into creating a base-line configuration for this system, Craps, The Ultimate Winning Strategies! I've learned over the years one of the main reasons why players consistently lose to the casinos; it's due to lack of knowledge and experience. I've done all the work and now all you have to do is master my strategies for success! By learning and applying Craps: The Ultimate Winning Strategies, you will be prepared to recognize the constantly changing conditions at the table and know when to walk away! I've learned over the years that one thing is for sure, your numbers will come up! The trick is knowing how and when to bet! It's all about consistency, how well you prepare, and making the right choices to

become "As Good as Any and Better than Most."
