If you plan on teaching piano, you should be required to read this book!!!By AnonymousI am receiving my Bachelor of Music degree with an emphasis in Piano Pedagogy and Accompanying (which is the study of teaching piano and performing).If you would like to learn about how to PROPERLY teach piano, READ THIS BOOK!It is awesome. It literally is a piano-teaching book for dummies.We have used this in my piano pedagogy classes and it is wonderful. It

gives examples and it gives thorough details of how to handle just about any and every situation, from hearing/learning impaired students, to teaching every age/level, to making a contract, to how to run a business. Again, I would highly recommend this book. It's wonderful. 1 of 5 people found the following review helpful. Five Stars
