No Magic

Here. By K. Ulrich Believe it or not, we have used this pack to help make decisions. What it does is simply cause one to stop and consider a bit more carefully what you might be doing. 0 of 0 people found the following review helpful. Whack your mind to and you know what follows! By Slice56 At first reading of the instructions of how to use the cards, it was intimidating. So what I did was read them one-by-one and enjoyed the illustrations. Once I had one that, I then started reading each group and what it was suppose to do. It was freeing and expanding my thinking almost right away. Then I started with the exercises. Even though I am still doing exercise #1, I really am enjoying it, I know it is time to move on to exercise #2 and #3.

An illustrated deck of 64 creative thinking strategies that will whack you out of habitual thought patterns and enable you to look at your life and actions in a fresh way. Use the cards alone or with others to seek innovative solutions to issues. Created by best-selling author von Oech, the cards have been used by many organizations, including NASA, in strategy development and problem solving. Complete with detailed instructions.
