It's not a massive book like the newer editions and has monsters that have been omitted in later versions. The Creature Catalogue is the first major expansion to the range of DD game monsters. Within its covers have been collected all the curious creatures first presented in the official DD adventure modules, plus many more new nasties, designed to challenge and perplex the heartiest heroes. Also included is a comprehensive index of all DD monsters found in the Basic, Expert, Companion and Master rulesets.
