Louise B. Moll : Cryptogram-a-Day Book before purchasing it in order to gauge whether or not it would be worth my time, and all praised Cryptogram-a-Day Book:

1 of 1 people found the following review helpful. Good, but has a few flaws By sghunter Basically, I like most cryptogram books. However, I marked this down for several reasons -- one, it's not spiral bound. That's not a big factor, but when you are working puzzles, it's easier if the pages stay flat. Two, there's not quite as much space above

each line as I would like to see. Three, instead of hints, this just has a section where the complete solutions are shown. Anyway, this is still a good puzzle book that will keep me busy, it's just not quite perfect. 43 of 44 people found the following review helpful. Another Good Cryptogram Book By Katie I've been doing the cryptograms in this book on off for quite a while now. I tend to go from one type of puzzle to another - enjoying each type for a month or two, and then moving on to something else. For the last several months, I have been engrossed with Sudoku puzzles (a numbers/logic puzzle), and have only recently moved back to doing cryptograms again... So, I got out all of my cryptogram books, dusted them off, and jumped right into the fun of decoding again (smile). I had forgotten just how much fun (and sometimes frustrating) cryptograms can be! "Cryptogram-A-Day Book" is filled with puzzles that, when solved, reveal an interesting quotation, as well as the person known for creating it. It's arranged by date - with one puzzle for each day of the year. It appears that the author's intention was that us cryptogram-lovers would do just 1 of these puzzles per day... However, for me, I just dig right in, and do as many as my spirit moves me to do. The only reason I gave this book 4 stars instead of 5 is because there are no hints in the back - all you get is the full solution. And, if you're anything like me, your eyes wander and you wind up seeing more of the answer than you wanted. I've become accustomed to the books that offer you 1 or 2 different hints that you can use if you become stuck, before having to go to the full solution. Overall, I think this is a good cryptogram book, and I really like the fact that many of the solutions are quotes that are inspiring, or lead one to ponder. So, if you enjoy cryptograms, I recommend you give this book a try. 0 of 0 people found the following review helpful. Ok By R. Moe Ok but not as good as Celebrity version in my newspaper. Wish I could find those in a book.

Test your wits with a cryptogram for every day of the year! Start the year with this one: FXA SRZ YNJIJS UC SRZ YZXYUT VOXEEZT AUHI RZXIS XTE TUHIJYR AUHI YUHO. (MAY THE SPIRIT OF THE SEASON GLADDEN YOUR HEART AND NOURISH YOUR SOUL). Solutions are cleverly scattered to prevent easy cheating. 128 pages, 5 3/8 x 8 1/4.
