0 of 0 people found the following review helpful. Great product, highly recommended!By JaegerI just got started, but look forward to this book. I am great at numerical-based puzzles, so this type is both new to me and initially challenging.0 of 0 people found the following review helpful. Five StarsBy KathyI am not smart enough to do these

but my gentleman friend loves these0 of 0 people found the following review helpful. Good oneBy Ver-LeI buy cryptogram books for my neighbor. She loves this one.

Cryptograms Puzzle Books - Cryptograms with Hints Exercise your mind and enjoy yourself with this fun book of cryptoquotes. Each cypher in the book is based on a quote. Some are surprising, some are wise, and some are just plain funny. Once you have figured out the puzzles, you will want to share the quote with your family and friends. This book includes two separate sets of hints after the puzzle section. The hints are there just in case you get stuck. Each encrypted quote is printed to allow plenty of space for you to pencil in possible solutions and the book is made with high quality paper which will stand up to plenty of erasing. If you enjoyed our other cryptogram puzzle book, Cryptograms: 269 Cryptoquote Puzzles from History's Most Influential People , you will be sure to enjoy this one as well.
