KempfPages are thin and bleed easily. On the plus side there are no designed on the back of each page, but you have tear out the page or it will bleed onto the next page. Some numbers are hard to read, especially 5 6...they look the same. On the picture you can see the black spots from the previous picture and you can even see the next design.0 of 0 people found the following review helpful. since I haven't been able to do my usual embroidery. The Cats dot to dot has worked out well. Keeping your mind sharp after age 70 is very important. Physical exercise is great but keeping the mind sharp is just as important. I plan on looking for another dot to dot to do during the winter months.
