The DD Group Strategy produces 6-12 combinations to focus on monthly in your non-computerized, mechanical ball lottery drawing. This strategy combines about four unique number laws to get a Pick 4 hit fast. Though it says monthly, hits are generally gotten in the same week, and some as early as draw #1! There are 5 simple steps to follow to create your winning playsets. Also, the strategy is expandable to producing two Pick 4 trio sets, or 20 combinations for even more wins. Designed for the budget-minded player who also wants to win using as few as 6-12 combinations daily. If this is you, then pick up this strategy today because it is a winner!
