I am not a music professional, but a music lover and my daily piano time brings me great joy and I am loving playing through this collection of Schubert Dances!9 of 9 people found the following review helpful. Good Introduction To SchubertBy Alan BeggerowSchubert wrote a great deal of dance music. Waltzes, Landler, German Folk Dances of all types. Many of them are suitable for piano students as recital pieces or for sight reading practice. But for anyone wanting to get more acquainted with Schubert's piano compositions, the Dances are an excellent introduction. Although some of these pieces are quite simple, Schubert's mastery of harmony and melody make them very enjoyable to play. There is a whole lot of music in this volume for a very reasonable price. Printing is clear, if a little small. But the book lies flat on the piano. There are no fingerings. Recommended!1 of 2 people found the
