1 of 1 people found the following review helpful. Great collection for fans of the 80's series By Laura Smith Great collection for fans of the 80's series. This small book is beautifully bound and contains an irreverent series of case files alluding to a wide variety of daring exploits by these memorable characters.

Crumbs! Danger Mouse's most sensitive, scintillating and secret operations have been revealed for the first time in this top-secret dossier. Kept under lock and key at MI5 (or is it MI6? One of the Mouse Intelligence agencies, anyway...)

for over 35 years, finally discover how DM saves London, the world and, most importantly, Penfold in fantastically absurd adventures. Be shocked and surprised, amazed and astounded by stories including the audacious theft of a chunk of ozone; the planned sabotage of the Royal wedding; and a sinister attempt by Jeremy Beagle to take over the airwaves. Cor blimey!
