Bryan Dawson : Dead or Alive 4 (Prima Official Game Guide) before purchasing it in order to gage whether or not it would be worth my time, and all praised Dead or Alive 4 (Prima Official Game Guide):

Five StarsBy Mohammed QayedBest Fighting Games I ever Played0 of 0 people found the following review helpful. Misadvised and Sorely OutdatedBy Bob AbaraiAs the previous reviewers have stated, this guide excludes many of the things that it promises, such as Vs matchups and Tag combos. It doesn't (and just might not be able to) teach you how to counter properly.As bad as this is already, it is actually outdated. Most of the techniques given have been modified by the 4.1 patch. So specific strategies no longer work. And certain 'key moves' are no longer as great as they were. Guard breaks and crushes are no longer guaranteed and that also screws with the advise in this

guide. Well, you might pick it up for the printed MoveLists, right? That is another weakpoint. FREE moveLists and frame data are available on the main site and are easily printable. So it seems that the only viable reason to buy this is for the art, and some MoveLists that could very well be obtained for free via the web. [However, I like the art, so I gave it two stars. Because, face it, the only reason people buy the Prima Guides in preference to web guides is the art.]
