DS2 has been greatly anticipated and has not let anyone down since it hit the market. I rock the strategy guides because I don't want to miss out on any of the side or hidden items. I'm not a HUGE Achievement hound, but i don't want to miss anything that'll give me an edge in-game or otherwise. Plus, the artwork, detailed maps, and extra little tid-bits of info enhance the whole game experience GREATLY! This is a TRUE collectible! With no Ultra Limited Edition as with Dead Space, this rounds out the Dead

Space 2 collection on top of all the bonus items you could score through EA.com. Like a good novel, I can only take but so much of the Dead Space universe, and this guide is just the companion piece to make the journey that much better. Enjoy! 0 of 0 people found the following review helpful. The Ultimate Dead Space 2 Guide. By Gabriel Zero This book is seriously amazing. It goes above and beyond in so many ways. For example it has a guide in it for the Dead Space Extraction game for the Nintendo Wii. The bonus content in this book makes it a must have for any Dead Space fanatic. 0 of 0 people found the following review helpful. Don't Buy it. By GoronVolvagia This Guide Don't show you all the Schematic Locations, Audio Logs, And power nodes Locations, there are a lot of errors in the maps, the guides that you find online are better. This guide also don't show you what armors and weapons you unlocked when you finished the game and where you obtained the schematics.
