Granted Debussy isn't exactly something you would teach children just learning piano, but it is definitely the perfect gift to the teacher to keep her on her toes. She absolutely loved it. 0 of 0 people found the following review helpful. Love Debussy. By JEJ. This provides a great

collection of Debussy piano works0 of 0 people found the following review helpful. Great music! Slightly damaged book.By ScottMy son loves playing out of this book! I was disappointed that although the product was wrapped and labeled "new", there are about 10 pages that are cut about 1 inch at the top. It doesn't interfere with reading the music, but he would have preferred an undamaged book.
