she loved it0 of 0 people found the following review helpful. If you like the doors at allBy CustomerIf you like the doors at all, you should read this. I don't think another person quite like Jim Morrison will exist again.0 of 0 people found the following review helpful. From the beginning all the way to the end..By Cody J. LerchThis is an amazing book about Morrison's life and how he became who he was. If you're interested in anything Doors related this book is a MUST to read. Most people interested in the band, got interested in them because of Morrison. This book does not disappoint and reveals things about Morrison we would have never known otherwise. It details his life from his very beginnings to the day Mr. Mojo Risin unfortunately left this world. I would recommend this book for someone not even a fan of the Doors. It's THAT Good!Break on through.....To the other side.

Here is Jim Morrison in all his complexity-singer, philosopher, poet, delinquent-the brilliant, charismatic, and obsessed seeker who rejected authority in any form, the explorer who probed "the bounds of reality to see what would happen..." Seven years in the writing, this definitive biography is the work of two men whose empathy and experience with Jim Morrison uniquely prepared them to recount this modern tragedy: Jerry Hopkins, whose famous Presley biography, *Elvis*, was inspired by Morrison's suggestion, and Danny Sugerman, confidant of and aide to the Doors. With an afterword by Michael McClure.
