By Marc Zemlick I am very disappointed to discover that after 6 months, there are page days missing and duplicate page days in the calendar. Bad quality control and not what I paid to receive. At a minimum, I would expect the seller to instantly send me a replacement that has all 365 page days included. 0 of 0 people found the following review helpful. I found this one and from the little bit of research I did it looked like it would be similar with single one off cartoons ... By sharky I had previously gotten the Argyle Sweater but this year by the time I went to order it was on backorder and wouldn't have been delivered for multiple weeks so I went searching for a similar calendar. I found this one and from the little bit of research I did it looked like it would be similar with single one off cartoons each day in a similar humor style as Far Side and Argyle Sweater. While there are some days like that there are far too many multi-panel multi-day on going plots that aren't really funny. A week straight of reading about some little girl writing a school report without doing proper research is boring as hell. 0 of 0 people found the following review helpful. Funny but missed the execution. By Kindle Customer missing some dates. lose a star, binding is not very good compared to other daily calendar I have, lose a star. Still funny but could have been better executed to be sure.
