Susan Reinhardt : Not Tonight, Honey: Wait 'til I'm A Size 6 before purchasing it in order to gage whether or not it would be worth my time, and all praised Not Tonight, Honey: Wait 'til I'm A Size 6:

1 of 1 people found the following review helpful. How can Susan Reinhardt be more comical ?By Sherry RabinSusan Reinhardt is the Master of prolific comedy writing. This book literally caught me off guard on where she was headed, which then induced a loud jerking belly laugh I couldn't contain, therefore I would not suggest reading this book in a library or during the Preacher's sermon because you are bored. Susan Reinhardt no doubt has the

gift - the gift to draw you inside her life as if you were one of the family members. This book holds nothing back regarding the antics and typical behaviors of a family trying to resemble some form of normalcy. One thing about Susan's writing style ... if you're not hee-hawin', you're at least grinning in amazement. 1 of 1 people found the following review helpful. EnjoyableBy Jenn @ Friends with BooksI think this is an enjoyable book. The author is very honest in her stories. Susan's stories of her mother were pretty funny. This is a compilation of stories from the author's life. I liked it. It's a nice book to pick up when you want to take a break between fantasy fiction, or just to read a story chapter during a break. 0 of 0 people found the following review helpful. funny in another era?By Patricia J. PetersenUnless you like making fun of people and racism might have been funny 30 years ago? I didn't feel good about going on with it.

Newspaper columnist Reinhardt has put together a collection of anecdotes and tales that ranges from side splitting to achingly poignant. She's like a modern-day, southern-fried Erma Bombeck or Dave Barry, and her tales of the ordinary will resonate with women everywhere. Meet her husband, Tidy Stu, who won't let her have bed skirts or load the dishwasher; her grandmother, who insists she doesn't smoke as she hides the lit evidence in her apron pockets; and her mother, a true southern lady and "double virgin". Laugh as Susan, determined to get her children a dog despite Tidy Stu's objections, purchases a nursing dachshund in a parking lot; hold back the tears as her mother comforts her through a miscarriage and as she leaves her son on his first day of school. Readers of all stripes will find themselves relating to Susan and thoroughly enjoying these, by turns, raunchy and tear-inducing real-life stories.

From Publishers WeeklyReinhardt slips Zoloft into her husband's tea for several weeks to cure him of an incessant need to clean and an overactive libido. She is matron of honor at her best friend's wedding and ends up taking the minister's place when his colostomy bag malfunctions. She gives an interview while on bed rest due to irritable uterus syndrome and later winds up reading a headline on her "grumpy vagina." Obviously, syndicated newspaper columnist Reinhardt is the kind of woman who gets into endless scrapes, but she's as amused by them as readers are, and her book will appeal to lovers of the Sweet Potato Queens and Fanny Flagg. But there's another side to Reinhardt. Some of the essays in this collection are lyrical even as they pay tribute to old favorites: Southern women, pregnancy and motherhood. Most of all, the author knows that some days we, like her, come into work just to see what the "weirdos" are up to, and that we like the same thing in our nonfiction. And while her topics are sometimes predictable and her humor is sometimes crass, her heart is always in the right place, and her prose is often fresh and fun. Agent, Ethan Ellenberg.
