A must additionBy markGreat addition to any Rocky fan collection and an absolute must for and movie "virgins" as you need to know what you are about to get into. Don't forget the rice, newspaper, lighter and toast !0 of 0 people found the following review helpful. So excited to get this book!By Nancy J. MutherMy daughter's American Lit class is actually studying this in college this semester! They will also be watching the movie and I think this book will give her a leg up! The book came very quickly and was exactly as described!2 of 2 people found the following review helpful. This will thrill you, chill you fullfill you!By E. HallThis guide comes with the original "say-it" lines so you'll have to add in any new ones you may come across. I continually add to mine it's a staple at all Rocky Horror parties (especially for the virgins to follow along with)They don't print these anymore, so, the book is a little fragile (the first couple of pages just fell out) but since you'd be writing in the book (which is a MUST if you own this book!) you don't need to worry about taping the pages back in!
