Native American, European and Hispanic communities. despite the variety of points of view, these characters share the pesky problem of ungrieved grief.0 of 1 people found the following review helpful. Keep This At Eye Level On Your BookshelfBy Charles ConsaulIf you are extremely lucky, at least once in your life you will be part of something special. If you are truly blessed, someone will give you perspective as to why that experience was special and how it fits into the whole! I knew Allen Lawless as a mentor, a fellow brass player, and as one of the best professional writers I have ever met. I never dreamed that he would be the same individual that would eventually take on the herculean task of pulling together all of the scraps and fragments of recollections, rumors and innuendo that would eventually be knit into the history of the 298th Army Band. He also manages to make it compelling and engaging, which was a huge relief. I am a tiny speck of dust at the end of this story, as I am an even smaller speck of dust in this incomprehensible snow globe we call our universe. But like the flower that has been picked or the casual remark that leads to some personal epiphany I can assure you that I know, I have truly been blessed. I would love to hear what you take away from your own reading of this remarkable tome, but please don't ask to borrow my copy. I'll be needing it.

Things go wrong in the Wild West Its 1858 and two Texas Rangers enlist the help of the Tonkawa tribe to join a small group of Rangers and militia to attack the Comanche on their Union sanctioned territory in Oklahoma. After a brutal first attack, it becomes clear the Comanche arent going anywhere and the Rangers are idiots to think otherwise. The acceptance of Texas into the Union requires the disbanding of the Texas Rangers and the two officers are outraged that their great reward is to be stripped of their rank and titles. After falling in with two equally bitter militiamen, the two buddies drift into a bank robbery, which goes about as well as can be expected. The two buddies are separated when one is thought dead and the other follows the gold. Lost in the desert, the wounded one is befriended by Comanche refugees, while the other returns to the scene of the crime. Things do not go according to plan.
