**Andrew Yule : Picture Shows the Life and Films of Peter Bogdanovich** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Picture Shows the Life and Films of Peter Bogdanovich:

15 of 15 people found the following review helpful. The most unbiased account of Dorothy Stratten By A Customer If you are interested in the life and death of 1980's slain Playboy Playmate of the Year, Dorothy Stratten, more than half of this book is devoted to her. Not only does it include the important role she played in Bogdanovich's life, but it is a descriptive "biography within a biography". I highly recommend this book on that account, even more so than Bogdanovich's biography of her, "The Killing of the Unicorn." The reason being that Andrew Yule uses unbiased evidence to describe the circumstances of her incredibly amazing, but tragically short life. It also gives the LAPD

account of her gruesome murder, which according to Mr. Yule is not accurate in the "Killing of the Unicorn". If you saw the recent television biography of Dorothy Stratten and you want to know more, I cannot recommend this book enough. 0 of 0 people found the following review helpful. Five Stars By Lawrence Hall If you had only one reference to read on the tragic life of Dorothy Stratten, this is it.

(Limelight). If Peter Bogdanovich did not already exist, Hollywood would perhaps have invited him. The son of struggling but cultured immigrant parents, he grew up on Manhattan's West Side and soon developed a passion for that other world of film and theatre. By his early twenties he had already acted in, directed and produced plays off-Broadway and written about film for major newspapers and magazines. Then, married, he made his way to Hollywood, gaining attention first for *Targets* and then three years later for the award-winning modern classic, *The Last Picture Show*. Suddenly he was a hot director and *What's Up, Doc?* and the enormously successful *Paper Moon* soon followed.
