**Robert Latham Brown : Planning the Low-Budget Film** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Planning the Low-Budget Film:

2 of 2 people found the following review helpful. entertaining description of how to make a low-budget movieBy Clayton E. CramerThis is an entertaining discussion of how to prepare a budget for making a low-budget (less than \$2 million) movie by a producer with experience making low-budget and high budget films going back decades. If you are making a student film, this is a lot more detail than you'll probably need. If you are looking at making a real movie,

something that isn't three of you with a nice camera, this is the book you need. My only regret is that I ordered the Kindle edition, instead of the paperback. There are a number of places where the paperback would actually be preferable because of the examples in the back. 0 of 0 people found the following review helpful. Excellent for neophytes like yours truly. By Benn Perry As a screenwriter preparing to shoot his first major motion picture, I found this book to be incredibly helpful. The depth and detail at which it delivers its information is fantastic, but never leaves you shaking your head and feeling like you should be reading one of those "...For Dummies!" books. It does exactly what you would think the title implies; helps you plan your low-budget film, and it contains applicable templates for a myriad of situations; leaving no proverbial stone unturned in the process. 0 of 0 people found the following review helpful. Educational By Chandra This is a required textbook of mine for Film Business class. I find it very detailed and informative. This is a book that I can always refer back to when needed.

Finalist, 2007 Benjamin Franklin Awards, for Best New Voice Nonfiction and Professional/Technical

"On all the movies [Bob Brown] worked on with me, he never failed to bring a film in on time and on budget. This book is a must read for anybody who is even thinking of producing a film!" Mel Brooks
