**Eric Wilder : Primal Creatures** before purchasing it in order to gage whether or not it would be worth my time, and all praised Primal Creatures:

1 of 1 people found the following review helpful. I wasn't disappointed. When I finished the EpilogBy CarlaO.K. So this is the third book of the French Quarter series by Eric Wilder that I've read. And once again, I wasn't disappointed. When I finished the Epilog, the first thing to pop in my brain was, "What a literary romp that was!" While this book can easily stand alone, I'm glad I've read the series in sequence. There's a wonderful, likeable ensemble of characters that weave through all three, beginning with the hero, Wyatt Thomas. You just gotta love this recovering alcoholic

with a soft spot for cats, an insider's knowledge of the many facets of New Orleans, and an uncanny ability and fearlessness when solving mysteries. Combine all that with a case that involves voodoo, werewolves (or for this tale, rougarou) a catastrophic hurricane the likes of Katrina, pampered celebrities, strange monks, and gory, seemingly unexplainable murders and you have a read that, like I said, is a real romp! Eric Wilder is a master storyteller who can almost make the bizarre, believable. On to #4! 1 of 1 people found the following review helpful. Ok...that was good :- )By MasabaThis is an interesting story. Not exactly what I expected but once you get past a couple chapters, you'll be hooked. The story takes an "interesting" turn with unexpected characters that will throw you for a loop...but keep reading. It made me smile sometimes. I think the author has a great imagination. You gotta love this. Enjoy. 1 of 1 people found the following review helpful. Werewolf, Cajun-styleBy GeekGrrlA rougarou is a Cajun werewolf. There may, or may not, be a pack of them living at the old monastery turned Hollywood retreat on Goose Island, south of New Orleans. Then again it could be zombies or maybe one of the Hollywood types got homicidal realizing they were going to spend their career so far off the beaten path it may as well be a different world. That's what P.I. Wyatt Thomas is hired to discover in PRIMAL CREATURES. Along the way, Wyatt, and a hugely entertaining cast of Southern cops, voodoo mambos, Hollywood glitterati, non-Catholic monks and more, must face their fears, each other and a freak hurricane if anyone is ever going to get to the truth. This is the third Wyatt Thomas mystery novel by Eric Wilder and although I've enjoyed them all, this one is my favorite. Possibly because Wilder's rougarou is not only scientifically plausible but also because there is a rich flavor that clings to this book that is missing in other supernatural mysteries set in Louisiana (yes, I'm talking about the Southern Vampire Mysteries by Charlaine Harris). Either way, PRIMAL CREATURES is an entertaining and quick read that will keep you on the edge of your seat right to the end. You don't have to know anything about voodoo, southern folklore or even the two previous Wyatt Thomas novels to enjoy PRIMAL CREATURES. If you like mysteries and the preternatural, you'll like PRIMAL CREATURES. I certainly did!

Though only forty miles south of New Orleans, Goose Island may as well be in another world. Five feet out of the shallow waters of south Louisiana's wetlands, the secluded island is home of the Tracists Monastery. It's also a resort frequented by actors, screenwriters, and powerful people in the burgeoning Louisiana film industry. When a heinous death occurs on the island, a movie producer hires Wyatt Thomas, the French Quarter's favorite sleuth, to find out whom or what killed the victim. Was it wild dogs or a rougarou (Cajun werewolf) as the local voodoo woman tells Wyatt? His own life threatened, he must first survive the killer (or maybe killers), and the deadly hurricane taking direct aim at the monastery. Primal Creatures is the third novel in the Wyatt Thomas French Quarter Mystery Series that includes Big Easy, and City of Spirits.

"Primal Creatures is a colorful zydeco of a read that's part mystery, part thriller, part travelogue and all fun." -The Preternatural Post"Definitely worth a read if you are a fan of mystery, voodoo, and unknown creatures." -I Heart BooksAbout the AuthorEric Wilder grew up in the steamy south listening to his grandmothers' tales of ghosts, voodoo, and political corruption. He now lives in Oklahoma, not far from historic Route 66, where he continues writing stories with a southern flair.
