Peter W. Rea, David K. Irving : Producing and Directing the Short Film and Video before purchasing it in order to gauge whether or not it would be worth my time, and all praised Producing and Directing the Short Film and Video:

Producing and Directing the Short Film and Video is the definitive book on the subject for beginning filmmakers and students. The book clearly illustrates all of the steps involved in preproduction, production, postproduction, and distribution. Its unique two-fold approach looks at filmmaking from the perspectives of both producer and director, and explains how their separate energies must combine to create a successful short film or video, from script to final product. This guide offers extensive examples from award-winning shorts and includes insightful quotes from the filmmakers themselves describing the problems they encountered and how they solved them. The companion website contains useful forms and information on grants and financing sources, distributors, film and video festivals, film

schools, internet sources for short works, and professional associations.
