He's a huge Paul Thomas Anderson fan, but even for someone simply in love with this movie, this script is incredible. It's a hardback copy and it has colored pages, making it very visually striking. If you're searching for something to get for someone who loves this movie, is a fan of Paul Thomas Anderson or even a gift for yourself, look no further. It's one of my favorite gifts I've ever given.0 of 0 people found the following review helpful. punch-drunk love itBy ted levineMagical film- fun to find the lines between page and screen with this helpful guide. Recommend to any die hard fans of PTA and PDL like myself6 of 6 people found the following review helpful. P.T.'s MasterpieceBy Michael CraneOne of my new favorites, "Punch-Drunk Love" is a unique and spectacular story about a man who doesn't know how the face the world around him. That man is Barry Egan. He has seven sisters who have verbally abused him since he was little, causing him to, now

all grown up, get into violent outbursts. Barry's a quiet and shy guy, but if his button is pushed things can get out of control. He meets Lena, a very strange and peculiar girl herself. Love falls upon these two, but Barry's even facing more problems after being blackmailed by a phone-sex operator. But when all else fails, he knows that he has a love in his life in this very oddball and dark comedy. I'm glad they came out with a script version of the film that you can buy. Paul Thomas Anderson has written a magnificent picture that's so easy to relate to, it's scary. The stuff that occurs you can see happening in real life. It's realistic and surreal at the same time. This is the shooting script, on blue, pink, and yellow colored pages that symbolize when the revisions were made. Technical terms such as camera angles are included as well since it is a shooting script. Even little changes are mentioned as well. I love the dialogue that was written and you can tell that P.T. had Sandler in mind for the part, because nobody else would've been able to pull it off. While it's not your typical comedy, I thought it was hilarious. It pretty much follows the movie, although some things aren't there or changed due to changes that occurred during the shooting. It's pretty much all there for the most part. "Punch-Drunk Love: The Shooting Script" is a great purchase for anyone who loved the film. It may not have been the most popular movie to come out of 2002, but it's #2 on my list. The pages fly by with ease, and when you're done with it you want to read it again. I can't wait for this movie to come out on DVD. I'm counting the days. A spectacular script for a spectacular film.
