Read This BookBy Michael ChaskesTroy DeVold lives and breathes reality TV, and his deep knowledge of and passion for the genre shine through in this exceptionally valuable book. As an expert reality TV producer himself, Troy covers every aspect of the

conception and execution of reality shows clearly, entertainingly, and with great insight. I am myself a longtime toiler in the craft (I've edited unscripted television shows for the last 12+ years), and Troy's book had plenty to teach me. For instance, working exclusively in post-production as I do, I spend literally zero time in the field, and this book gave me a useful perspective on the concerns and considerations the field producers and crew face daily, in order to capture the footage we editors need. If you have any interest at all in reality television -- as a fan, as an academic, or as a current or wanna-be practitioner of the craft (at any level and in any job description), this book is a must-have. 1 of 1 people found the following review helpful. Troy DeVold has countless producer credits in Reality TV because he knows how it all works...By Daniel L. Abrams The author has countless Reality TV producer credits because he's honed his craft and he's great to work with - so says all of our mutual friends in the industry. DeVold is one of the most knowledgeable and respected professionals in the Reality TV world. In a mercilessly competitive business it's wise to get as much trustworthy insight as possible. Buy this book and actually read it. Then read it again. Make great shows and then share whatever new insights you gather along the way. Good karma to you.

Reality TV: An Insider's Guide to TV's Hottest Market is a no-nonsense read that doesn't sugarcoat the realities of the process or the ethical gut-checks that writers and producers often experience in trying to deliver an engaging end product. This newly updated 2nd edition includes new exercises, information about the Global Reality TV Market, and the latest information about Reality TV.
