It worked for me -- insightful, funny, irreverent. For a short read, it packs in a lot of fun.0 of 0 people found the following review helpful. Great read!By JennickeeVery funny, and

very relatable book. It's a book everyone will enjoy!

So you picked up the book. Why? We both know its because you dig the cover, right? I knew it! So far Im pitching a perfect game. Now whats it all about? Well, amigo, its another book about men and women. Yes, I know, but this one is a little different. No drama, very little advice (God knows I dont have a lot to give). Its about my experiences, some of which are a little over the top-- funny, but believe me, over the top. My bet is that youll buy this for your hubby, but youre so curious youll read it before you give it to him. So enjoy, and do me a favor, make sure you remember to laugh! Dave
