Markus Nornes, Aaron Gerow : Research Guide to Japanese Film Studies (Michigan Monograph Series in Japanese Studies) before purchasing it in order to gage whether or not it would be worth my time, and all praised Research Guide to Japanese Film Studies (Michigan Monograph Series in Japanese Studies):

The Research Guide to Japanese Film Studies provides a snapshot of all the archival and bibliographic resources available to students and scholars of Japanese cinema. Among the nations of the world, Japan has enjoyed an impressively lively print culture related to cinema. The numbers of publications match the enormous scale of film production, but with the lack of support for film studies in Japan, much of it remains as uncharted territory, with few maps to negotiate the maze of material. This book is the first all-embracing guide ever published for approaching the complex archive for Japanese cinema. It lists all the libraries and film archives in the world with significant collections of film prints, still photographs, archival records, books, and periodicals. It provides a comprehensive, annotated bibliography of the core books and magazines for the field. And it supplies hints for how to find and access materials for any research project. Above and beyond that, Nornes and Gerow's Research Guide to Japanese Film Studies constitutes a comprehensive overview of the impressive dimensions and depth of the print culture surrounding Japanese film, and a guideline for future research in the field. This is an essential book for anyone seriously thinking about Japan and its cinema.
