compelling A-list part written into the movie and understand the star's journey, the other characters rise to that level. Keane is a working screenwriter with years of teaching experience, so reading his book is like having a very savvy script doctor sitting next to you, sipping coffee and explaining the nitty gritty. I used Keane's last book to start writing scripts that place in contests. Hopefully this one will help me take my scripts to the next level. A great addition to a working screenwriter's library.0 of 0 people found the following review helpful. Disappointed.By Richard H. WellsA different slant on screenwriting, interesting but.... the title is misleading. I hoped for specifics on attracting an A List actor. Instead it is the usual screenwriting stuff. Getting your screenplay madeBy BarbChris Keane has the inside scoop on how to get your screenplay to the right people using techniques that sell. The book is easy to read and informative. I've also read Chris's other books, "How to Write a Selling Screenplay" and "Hot Properties" which were loaded with information that every screenwriter needs. With his newest addition, I think Chris helped writers understand the importance of writing for the A-list actors and the necessity of a strong main character.

A sure-fire strategy to get your script made, Romancing the A-List aims the screenwriter's talent at the most powerful source for getting a movie made: the A-List actor.
