BradyGames : Sunset Overdrive Official Strategy Guide (Bradygames Official Strategy Guides) before purchasing it in order to gage whether or not it would be worth my time, and all praised Sunset Overdrive Official Strategy Guide (Bradygames Official Strategy Guides):

1 of 1 people found the following review helpful. No help when you need it By Douglas Fenton The guide provides a

hard copy of the maps, weapons, characters, that are in the game. It adds no extra values. It provides an outline for the challenges but very basic. One example - in one part of the game you needed to jump on 10 drums without hitting the ground. I could only find 9 drums. The guide only tells you the challenge you already know. It does not tell you that the 10th drum is on top of the fountain. During the course of the game I felt stuck 3 times - in all 3 cases the book was no help. In the first case it was a series of jumps - the book did not even cover a map of the area. The book provided no extra info or hints that was not in the help and maps within the game. It's just a print out. If you get stuck you are better to use google and YouTube. 0 of 1 people found the following review helpful. VERY HELPFUL!!!! By Brett Colbert II Sometimes I go by the guides on the internet but the guide books are WAAAAAY better!!! This book helped me out a lot, especially when I get stuck or confused. 0 of 1 people found the following review helpful. Five Stars By John Brezina excellent book
