

last section that goes over secrets can be invaluable, especially the part regarding extra lives which are essential when you play with more than 1 person. The only thing I believe this book doesn't really mention is that the Coin Express (which you can get access to after unlocking World 5) appears once every game session. You have to close the game and go back in, it won't re-appear after a game over like the Toad Houses do. And of course, with printed strategy guides you get tons of pictures to help guide you through which you won't find in any online guide. 6 of 6 people found the following review helpful. If you like Mario games, get this book to get the most out of the game. By notsoNEWKINDLEUSER This is a great book. It is actually a hard cover book, which surprised me. Worth the money and to get full value from the game. 1 of 1 people found the following review helpful. Great.....really, really GREAT!!! By xplics I thought the artwork on this one was fantastic - very evocative of the games story and some of the things in it that are symbolic, really gives the feel of Mario 3D world plus older games from the series. There's just so much detail, the longer you look at it really makes the most out of Super Mario 3D world in a way that was not expected. The hardcover and the artwork start you off so that you know there's a lot to look forward to. Mario fans and Super Mario 3d World gamers alike this book comes highly recommended.
