Great game, but guide not so goodBy BelialThis is probably my favorite of the smash brothers games, and I usually really love the Prima guides, this particular Prima guide, was not quite what I'd hoped for. Don't get me wrong, it's got alot of information on character upgrades and so forth, but for me what i wanted was a proper walkthrough of character mode of some of the later levels that I got stuck on. But this guide was very lacking on this, so not up to Prima guides' usual brilliance. Shame really, because I love this game.1 of

By Ebony Dark'ness Dementia Raven Way This book provides exceptional reviews of individual stages and characters, plus guidance through the entire game. However, they gave my favorite character a 6 out of 10. I really disagree with this because I looked up other characters and the ones I've previously defeated had a higher rating than my character. This is ridiculous because it clearly demonstrates that, in a master's hands, a character can defeat anyone. Advice: my character is Zelda. The ability to control fireballs from a distance and teleport when the need arises has brought me many victories over other players. Try her out and see if you do well. 0 of 0 people found the following review helpful. I do not know much about it but he said it was a good guide and has good artwork. By Jennifer L. Nettles This guide was a gift for my grandson and he really likes it. I do not know much about it but he said it was a good guide and has good artwork,
