**James Riley : Super Sudoku Book 2** before purchasing it in order to gage whether or not it would be worth my time, and all praised Super Sudoku Book 2:

0 of 0 people found the following review helpful. Great for beginners ready to go to the next level.By Angela TSimply love this book. Its the perfect follow up to Book 2. You'll be a Soduko champion when you're done. Its great for getting beginner's to the next level without making you too frustrated.0 of 0 people found the following review helpful. One of the BEST Sudoku Books I have Found!!!By Rather be at the BeachThis is one of the BEST Sudoku books that I have found.and I have tried a lot of Sudoku books! This Super Sudoku Book 2 with Levels 1-6 (Easy to Challenging) explains strategies that can help anyone with their Sudoku game. The beginning games are extremely on the Easy Level which keeps it fun and relaxing for beginners. I have wasted money on so many Sudoku books that are not well

thought out and are simply frustrating to the player. **THIS BOOK** is very FUN! I highly recommend it!

The second volume includes a number of easy-to-medium puzzles, but adds more difficult puzzles as well (levels 45). Also included are the more challenging Dual Sudoku puzzles (level 6). 76 puzzles. 5" x 7". 2005. GDY420.

About the Author James E. Riley, PhD, was a professor of mathematics at Western Michigan University and a high school math teacher for 30 years after serving as an officer in the U.S. Army. His previous books include *Helping Your Child with Math*, *Stand Up Math* and *Middle School Math Competition Problems*. He currently resides in Teddington, England.
