Great accompaniment to cello songs, songs sound good on their own as well :) By kemilie This book is the piano part to accompany cello for Suzuki Cello volume 1. My son really enjoys having the piano play along when he practices as it adds a fun element to practice time. He asked me to buy this book so his brother can learn the piano parts - I was a bit hesitant as I was thinking it might be a bit too complex but it's not too bad. A few of the pieces have one or two sharps but most have none. There are a lot of repeated notes making the songs easier to learn. My eight year old has been able to master the songs (he has ~ 1 year of piano experience). My book included all the pages (another reviewer had issues with the last song being cut off.) 0 of 0 people found the
