These books are the best for doing that. 0 of 0 people found the following review helpful. but I like suzuki moreBy Nat. VI grownup with yamaha, but I like suzuki more. This repertoire just take you straight in to the world of classical. Lot and lot of songs from great composers. It is not for self-study tho' 0 of 0 people found the following review helpful. Balanced selectionsBy

Dianna I am an adult learner, and I have loved playing the music in this book. It is a little heavy on Bach (four minuets!) but there is also Bartok, Schumann, von Weber, Mozart, Hummel, Beethoven, and more, so I feel it's quite well-balanced. The Suzuki series is perfect if you love classical music and don't want to play contrived, made-up songs accompanied by garish pictures and dumb lyrics.

The New International Edition of Suzuki Piano School, Volume 2 includes French, German and Spanish translations, new Romantic and 20th-century pieces. The contents have changed slightly with minimal reordering of the music. The Mozart Minuet and Bach Musette from the earlier edition were eliminated and replaced with two new 20th-century pieces by Bartok (noted below), and the Bach "Minuet in G Minor" (from J. S. Bach's Notebook for Anna Magdalena Bach) has been moved to Volume 3. Other improvements include a cleaner appearance with less editing and spacious new engravings, as well as more detailed titles that include the keys, sources, composer dates, and catalog numbers.
