I love the Suzuki method!By SwanbirdI grew up learning the Suzuki method for piano, so when I bought a violin I knew I wanted to use the Suzuki method as well. These updated books (well, updated from the '80s) have so much information and theory in the beginning of the book which, as an adult, is really helpful for me to learn before diving into playing the instrument. I'd highly recommend this method to anyone looking to learn the violin (or piano).0 of 0 people found the following review helpful. Nicely doneBy louisiananativeJust purchased, but love the cd which has all the songs with piano accompaniment and then all repeated of piano only, for you, the violinist, to have as an accompaniment. Nicely done. The book is well prepared, also. Will caution though...be careful who you order from as it took me three separate orders of three separate vendors to receive

the item (here on). Lot of run around. Happy to finally have the book and the cd.0 of 0 people found the following review helpful. It would have been nice and smaller if it was just in englishBy Barry C.Exactly as advertised! The only thing I would change is the entire book is in several languages. It would have been nice and smaller if it was just in english. I may have been able to fit it in myviolin case
