Making true music means interacting with other musicians and when you need to have a live piano accomplishment, this book is the perfect resource to give to your pianist. It has really propelled our son to become a serious violinist and the local piano teacher was glad we could offer the proper music for our son's violin lesson support. 13 of 13 people found the following review helpful. Great series! By Dan As a guitarist of 9 years now learning the violin, I am really enjoying the Suzuki series and making a lot

of progress. I would, however, recommend supplementing Suzuki pieces with some independently selected pieces of various difficulty levels. The thing to remember is that the Suzuki pieces are chosen specifically for teaching techniques, and each piece is not just one technical lesson, but many. This is great, and it allows for rapid progress, but it's easy to get a bit drained by the onslaught of new techniques in every piece. If you apply the techniques you learned in a given Suzuki piece to other music of a similar or easier difficulty level, this can help reinforce what you've learned before you move on to the next Suzuki piece (plus you've added to your repertoire). 0 of 0 people found the following review helpful. Suzuki is a great way to LearnBy ARBURGSuzuki Violin School is a great way to learn violin. The songs are fun and each lesson builds on the last one. Most importantly it is a lot of fun and the CD's make you feel like your playing in a symphony.

Teach violin with the popular Suzuki Violin School. Revised edition features: New engravings in a 9" x 12" format  
New editing of pieces, including bowings and fingerings 16 additional pages Additional exercises, some from Dr. Suzuki, plus additional insight and suggestions for teachers Glossary of terms in English, French, German and Spanish
