The numbers are technical and challenging, but very melodic and fun to sing to. Because this is an adaptation from the movie, rather than a play, a few of the minor musical numbers are missing. However, the memorable pieces are all present and the book is very long. It's a fun play if you enjoy the original music8 of 8 people found the following review helpful. Excellent Piano MusicBy TeenFor a bit of background, I've played piano for over 10 years and have over 15 Broadway musical piano/vocal sheet music books.This Sweeney Todd delivers on all counts. The music is not for a beginner, for sure, but would be appropriate for intermediate to

difficult players. The piano part is not shortchanged to get vocals, as it so often is; the vocal part is full of the beautiful rhythms. Another nice touch is that the monologue into the songs are included at the top of the music-I've never seen that before. However, there is one problem. To get the movie down, some of the middles of songs have been cut. One noticeable cut, which happens to be my favorite song, is "Kiss Me" (performed by Johanna and Antony, and then Todd in the 2nd). If your only exposure has been the movie, though, you will find it exactly as seen. 1 of 1 people found the following review helpful. This is not for piano, the chords are impossible ...By N. Huebler This is not for piano, the chords are impossible to play. It's the musical score, but not specifically for piano.

From talented director Tim Burton, Johnny Depp and Helena Bonham Carter bring to life this dramatic tale of vengeance and passion. Based on the original Tony Award-winning Broadway show, the film version opened in theatres to critical acclaim and a coveted Golden Globe Award for Best Motion Picture.
