And not the best of them.0 of 0 people found the following review helpful. Sweeney Todd: The Demon Barber of Amber's PianoBy JaaaaaataaaaaamesI absolutely had so much fun playing out of this book(On my Piano). I love the movie, broadway production, and Stephen Sondheim and immediately had to order this book. I plan on taking vocal lessons and this will deffinately be close to first for me to learn.7 of 8 people found the following review helpful. Living the Magic of SweeneyBy SweeneyAfter taking a part in this show in the fall of 1998,

I fell in love with each character within the show. I desperately wanted the score to the show, but realized that this idea was out of the question because it would cost me (too much money). In theater class, i was searching through scripts and came across this rather thin but thorough script of Sweeney Todd. It's definitely a keeper with all of the rare pictures and drawings that are included in it. Buy it!
