It is very poorly written and designed. I suggest putting it away, and just look at the imagery on the cards. They are so evocative and easy to "read". One does

not need to read the guidebook, Just look at the imagery. I enjoy using this deck alone and with other decks. It adds depth to the query. And like I said the cards are super easy to read. I ignore the astrology signs in the corners. The LWB is more written for astrology scholars. so if you are not scholar in astrology, then just put the little guide book away. and draw some cards. play with the deck. It is so versatile. I esp. like it for relationship queries, as it has so many great images to cover fuller spectrum of human romantic relationship, more aspects than regular tarot decks. And there are so many different perspectives of fools card too. So many different perspectives of fear, inner conflicts, shadows, etc. Love, love, love this deck. i wish more artists would follow this guide and do freer decks?0 of 0 people found the following review helpful. I found my deck!By Feather HaloI'm new to card reading have collected around 25 decks just for their art work. I fell in love with the art work on this deck. When I first opened the deck I realized it was in order with the book. I hated to do it but I took a fine point sharpie put a number at the bottom every card so I could find it in the book. I started looking up the meanings in the book online. A week ago my hot water heater went out it's in the attic. My friend went into the attic to check on it fell through my ceiling. On my kitchen table sat my deck the card facing up was "The Fall". Needless to say I started using the deck it's been right on. It may be a trigger deck for the past for some but for me it's today's events. I will eventually purchase another deck that I haven't written on. I use a 5 card spread, pulled at random from the deck: 1 Situation, 2 Emotions, 3 Obstacle, 4 Final Goal, 5 Advice.I don't know anything about astrology so I don't use the symbols. The pictures tell a pretty clear story so I don't use the LWB so much either. It would be nice if someone would translate the book that goes with these cards into English. I would love to read it.5 of 5 people found the following review helpful. Truly a deck to make your ownBy Carole SawyerThis Deck is unlike other tarot card decks. The cards are not named on their faces, but include symbols like those in astrology.This deck is for anyone who truly seeks working with their intuitive self. The artwork is phenomenal and really speaks to the subconscious. The booklet gives ideas as to the artist's meaning of the cards and different ways of using them. I recommend this deck for anyone who is searching for that ultimate "their own" deck. As a tarot reader of over 45 years, I grew tired of the symbolism which is repeated over and over again. This deck has set my subconscious free.

This 80-card deck uncovers the memories of the soul. Astrology, personal insights, and symbolism in daily life are revealed.
