By Freezing Artist Unfortunately for us, Borodin wasn't a full time composer, but only one of the "might handful" was. However, he did leave us with this work, his 2nd Symphony in B Minor. If you enjoy the brass of Wagner, parts you'd swear were Mahler-esque, and Russian themes, you'll love this symphony. A recording of this that I'd recommend is the Deutsch Grammophon's recording with Neeme Jarvi

conducting.

Borodin, a major Russian composer of the 19th century, is best known for his extremely popular Polovitsian Dances and his great opera Prince Igor. His Symphony No. 2, which he took seven years to complete, is among his most important orchestral works and is much studied as an example of Russian nationalist music of the Romantic period.
