This is an excellent copy of Beethoven's score that is easy to read and follow along with. What i did get to read for the essays was amazing. A great selection of historical figures writing about Beethoven is a great companion to have for any enthusiast and, more specifically, to this outstanding and beautiful piece of music.1 of 2 people found the following review helpful. Informative scoreBy Aaron HillLots of helpful analysis and essays on the score included. I was pleased with the quality, though old and definitely worn.0 of 1 people found the following review helpful. Study!By sarah nailPerfect book for class.

An original concept: in one volume, a study-size score of a major musical work, and a comprehensive body of tools for the study of that work. Music examples and charts illustrate the analyses, and each essay is fully annotated by the editor. In some cases, the results of the original research by the editor or by others working in the field are published here for the first time. Much of the material has never before appeared in English. A score embodying the best available musical text. Historical background what is known of the circumstances surrounding the origins of the work, including (where relevant) original source material. A detailed analysis of the music, by the editor of the volume or another well-known scholar. Other significant analytic essays and critical comments, exposing the student to a variety of opinions about the music.

From the Back Cover Beethoven's historical background, major musical work and a comprehensive body of tools for the study of that work.
