Charles Ashbacher : Table of Contents Pages From all 38 Volumes of Journal of Recreational Mathemati
before purchasing it in order to gage whether or not it would be worth my time, and all praised Table of Contents Pages From all 38 Volumes of Journal of Recreational Mathemati:

This book contains all of the table of contents pages from all 38 volumes of Journal of Recreational Mathematics. There are few changes from what appeared in the journals, a few obvious typing errors were corrected as well as the titles of the solvers lists were occasionally altered to reflect the title of the entry. There were many mathematical advances published in Journal of Recreational Mathematics and it is my hope that this will be clear to the reader.

About the Author Charles Ashbacher is the former manuscript editor of *Journal of Recreational Mathematics*, taking over from Joseph S. Madachy. He was the editor for the last eight volumes until it was discontinued. Charles is also the author/editor of over 15 books, many research papers in mathematics and is a highly regarded reviewer on Goodreads. Charlie is also a regular contributor of book reviews for MAA Online. This book is one more component of his attempt to continue the legacy of recreational mathematics that was done so well by Martin Gardner and Joseph S. Madachy.
