**Taylor Swift : Taylor Swift: Violin Play-Along Book with Online Audio (Instrumental Play-Along)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Taylor Swift: Violin Play-Along Book with Online Audio (Instrumental Play-Along):

2 of 2 people found the following review helpful. Great selection of songs By K. Nannarone The violin music book selection is great. My daughter is only a second year student so the songs will take some practice to master, but she is thrilled to get this book. The only reason that I am giving this 3 stars is that the accompaniment music cd that we received with the music does not work, so my daughter is struggling with tempo and does not have the music to play along with. If it had a working cd, I would definitely give the book 5 stars just because of its ability to get my child

excited about playing her violin again!0 of 0 people found the following review helpful. good priced. Granddaughter loves itBy David M. FelixFast service, good priced. Granddaughter loves it.2 of 2 people found the following review helpful. Perfect giftBy M. SponzoThis was exactly what our granddaughter had wanted. Her only regret was that the words to the music were not included. Perfect gift for budding violinists who love Taylor Swift.
