I am seriously considering a selection of these to preform at a junior recital, college. 7 of 7 people found the following review helpful. A gem of a collection By Alex Scriabin Although considered miniatures, these pieces are not easy. They take interpretive skill and finesse to execute convincingly. This edition provides helpful background information, fingering, and performance suggestions. I am generally very impressed with Alfred

Masterwork Editions. I cannot imagine learning these pieces without using this edition. Thoughtfully done!

By Kelly P. Chu
The presentation is good. Printing is clear. Good to learn the seasons from Tchaikovsky.

This volume includes 12 character pieces-one for every month of the year-which creates the musical atmosphere, alluded to by their respective titles. Expressive and thoughtful, they are effective performance pieces for intermediate to moderately advanced pianists. The editor has maintained the works in their original form and indicated tempo, dynamics, phrasing and fingering where necessary. Beautifully engraved, the music is widely spaced for easy reading.
