Stuart A. Hyde : Television and Radio Announcing (11th Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Television and Radio Announcing (11th Edition):

0 of 0 people found the following review helpful. Buy it!By Loly MarzBought this textbook for my RTVF: Announcing and Performing course and I absolutely love this book. I know its going to serve to be very useful even after my class is over in December. It has plenty of insight for any student looking to advance or begin their announcing career. I love that my professor allowed me to purchase this edition instead of the newer version of this same book. He says it is just as relevant and much cheaper! Television and Radio Announcing takes a practical, career-oriented approach to the study of broadcast performance by

successfully blending the coverage of theory with the practice of announcing. Now in its eleventh edition, this classic book incorporates the broadest coverage of any announcing text in the market. Hailed for its compelling, conversational writing style, Hyde's work offers timeless and relevant information for those new to broadcasting, while emphasizing the most successful techniques in the field. The new edition has been revised to reflect the recent technology and market changes affecting announcers today and retains the same overriding goal of previous editions: to help readers become more effective and responsible communicators.
